Bold jewelry design from the North

Combination of modern jewelry design, traditional Finnish handicraft and high-quality materials create the unique style of Kalevala Jewelry. The design language lies in the modern Scandinavian style with a strive for timeless design with a fresh touch.

Every piece of Kalevala jewelry carries a story. The story can be inspired by our pure unspoiled Nordic nature, by historical tales or modern life alike. Opera, literature and charity are also among the sources of inspiration for many Kalevala Jewelry designs. Our bold silver jewelry collections capture the essence of our nature's beauty – glimmering ice, bright shiny snow and the long winter nights. These collections represent the elegant style of today's jewelry fashion.

Kalevala Jewelry is more than jewelry.

Design house of 4000 women owners

Kalevala Jewelry is the largest jewelry manufacturer in Finland and one of the largest in Northern Europe. The ground of design is strongly based on Nordic nature and Scandinavian culture. Production of Kalevala Jewelry today can be described as a perfect marriage of craftsmanship and high technology. All jewelry is manufactured in Finland.

The company is owned by its founders, Kalevala Women's Association, a cultural organisation of 4000 women aiming to promote Finnish culture. For over 70 years the company has remained loyal to its basic values - strong corporate social responsibility, national consciousness and charity operations. The company has strong principles and lasting values, yet it embraces new challenges with vision and passion.
