Kalevala Jewelry

Kalevala Jewelry is the largest jewelry manufacturer in Finland and one of the largest in Scandinavia. The ground of design is strongly based on Finnish and Scandinavian culture combining the historical heritage with modern life alike. All jewelry is manufactured in Finland.

Feminine responsibility

The founding women of Kalevala Jewelry had strong ethics. Their values included an appreciation of the Finnish woman and a deep responsibility towards Finnish society. Company is still owned by its founders, Kalevala Women's Association, a politically unaffiliated cultural organisation aiming to promote Finnish cultural heritage. Since 1937 the company has remained loyal to its basic values, summarised in today's Kalevala Jewelry slogan: "Bold, Timeless, Genuine".

Jewelry takes a stand

Kalevala Jewelry has always taken responsible approach to its operations and the surrounding world. Today Kalevala Jewelry is producing jewellery with part of the profit being donated to a good cause. The company has favoured causes that comply with its values and support women and children in particular. The company has strong principles and lasting values, yet it embraces new challenges with vision and passion.

DESIGN MARJA SUNA

The reflection of light on surfaces is an important element in Marja Suna's jewelry. Light reflects from the living silver surface and beautifully cut stones. Suna defines her style as classically contemporary: representing their own time while sometimes also gazing at the future. Fashion Designers MTO selected Marja Suna as Fashion Designer Of The Year in 1998 in Finland.

sterling silver • Design Marja Suna

DESIGN MARI SAARI

A goldsmith by training, Mari Saari is an active trendsetter in fashion and design. Fashion is near to her heart: all that is fluid in contemporary life is filtered in many ways into the final jewelry creation. It is important to her that you can wear different pieces of jewelry together or separately and, that you can play with the pieces and always discover something new in them by combining them in different ways.
